
Face shield

For healthcare areas, the care sector as well as for rescue and emergency teams.

cirp and Fazua develop a reusable face shield for large-scale series production.

USE

cirp and Fazua have developed together a reusable face shield for healthcare areas, the care sector as well as for rescue and emergency teams in close collaboration with the Munich-based clinic RoMed Kliniken Rosenheim, and with Prof. Dr. Med Dirk Weyhe, Director of the Medical Campus University Oldenburg. The face shield stands out because of its high wearing comfort, the visor of 340mm provides a large coverage area of the face and it is easy to clean with common disinfectants.

PRODUCT FEATURES

- Can be used multiple times as it is easy to disinfect with common disinfectants (except snap button strap)
- Stable face visor with generous side cover and dimensions of approx. 340mm x 255mm
- Can be used while wearing masks, safety goggles or corrective lenses
- Visor distance to the forehead band is approx. 4 cm
- Coverage area can be expanded by adding flaps to cover the forehead and/or a clip-on chin cover
- High wearing comfort due to its low overall weight from approx. 97g
- Awaiting approval as protective face shield for medical use (Germany)

MATERIALS

Visor
Polyethylene terephthalate (PET), Polyvinyl chloride (PVC), Polypropylene (PP) or Polycarbonate (PC)
Forehead holder
Polypropylene (PP)
Chin holder
Polyamide (PA)
Snap button strap
predominantly polypropylene (PP)
